NEW CATALOGUE.

The legislature of 1874 made an appropriation of \$600 towards defraying the expense of extra labor in preparing a new catalogue. For this purpose only \$149 was expended during the library year ending September 30. At the last session

(1875) another appropriation of similar amount was made for the same object, of which, at the close of the library year in 1875 there had been expended for extra services, \$366.35, and for additional compensation to the regular assistants for increased labor and care, \$336; making the whole amount expended, in the two years, in the preparation of the catalogue, \$851.35. This latter sum, taken from the two appropriations of \$600 each, amounting to \$1,200, leaves an unexpended balance of \$348.65 of the whole sum appropriated for clerical labor.

It has not been thought important to hasten the preparation of the copy for the printer. No urgent calls are yet made for the completed work; and it has been deemed desirable to take sufficient time to secure accuracy, thoroughness, and the benefit of the latest improved methods; also to employ the regular force in the library as far as practicable, for the sake of economy. Hence the small amount of extra assistance which has been employed.

During the years named, 1874 and 1875, special grants were made for incidental expenses that might arise in the prosecution of the work, amounting to \$500. Slight charges have been made upon these grants,—in all only \$54,—leaving a balance of \$446 not called for. These unexpended sums,—\$348.65 for clerical labor, and \$446 for incidental expenses,—amounting to \$794.65, if still available for future use, would probably be sufficient to complete the manuscript for the press. The necessary means of continuing and finishing the preparation, which will require another year at the present rate of progress, the legislature are respectfully requested to provide.

Respectfully submitted.

JOSEPH WHITE,
Librarian.

OCTOBER 12, 1875.
